# WELCOME

Hi. I'm Luke, the founder of Luke Rees Inspires.

I'm 23 years old and I have grown up facing challenges and adversity all of my life, living with mental health challenges and in particular anxiety and depression, was the never the recipe for success.

As a young person, I fell into the trap of believing that my future was written for me. I'd leave school and end up like everyone else in my area with little to no aspiration and belief to unlock my own potential. However, I'm just one story. There are millions of young people out there who feel the same.

But that's not good enough and that's why Luke Rees Inspires exists.

To inspire a generation of people to believe in themselves to unlock their own potential.

On our own, you can only do so much, but together we can achieve anything.

A handwritten signature in black ink that reads 'L Rees'. The 'L' is stylized with a long vertical stroke and a horizontal base. The 'Rees' is written in a cursive script.

## WHAT YOUNG PEOPLE SAY

Hey man, just wanted to say a huge thank you for the leadership talk earlier. I was going to say this in person but you were busy answering questions haha. Your story really inspired me. What you've overcome and achieved at your age is amazing. The talk reaffirmed and taught me a lot. The main thing being to put yourself out there and take every opportunity and not to care what others think or say. Thanks again you're a legend

Thankyou very much for today's talk at Balcarras. I've always struggled with anxiety and it brings me down. You made me feel like there is others going through this and that gave me confidence. Although difficult I am going to try to now and speak to someone and help my issue. Thankyou for the speech it was amazing and I was interesting all the way through.

Thanks for you to my school today in Bridgend, usually the learning core days in my school are pointless but your motivational talk today was a different level, I chose to come back to your workshop in the 3rd hour and it was the best decision that I've made since being at school, you telling me to stop focusing on my problems and begin focusing on the solutions really hit home so thank you so much

You were great today, thank you for the talk. I have had many problems with mental health in my past, and my go to is music. Recently I did an audition for the voice kids, which I thought I was not good enough. Turns out I got a turn and I'm through several auditions. Your talk today just made me think that I can do things. Thank you very much 🙌

Cheers for the advice today Luke 🙌  
Your a very motivational and I want to thank you for coming to Balcarras and helping all of us . I know for a fact that in that crowd you didn't just help my self-esteem but I everyone else's 🙌

Hi Luke I was a year 10 pupil from Pencoed School that you spoke at today. I just wanted to message you say how amazing your talk was. I've always struggled and lacked confidence in myself. But today you totally changed my life as you taught me the how important it is to believe in myself. Thank you sooo much

thank you for the speech today, it meant a lot to know how i feel someone else completely understands it too. gives me hope for the future. thanks again :)

Hey Luke I came to your talk today at Pencoed School and I wanted to say how much I appreciated you sharing your story, I often get up every day and keep falling into the same rabbit hole and I always blame others for my mistakes but today you taught me start holding myself responsible for my actions and decisions, as soon as I came home from school today the first thing I did was set a goal and began to challenge myself by revising for 1 hour and now I feel so much better for it, thanks for your advice and helping me realise what how I can change, your a legend mate

Cheers for your talk today Luke. I felt really anxious coming to school today you made me feel normal, life everyone else for the first time in months. I know deep down I haven't been working as hard as I could of but I thought that by not trying and putting the work in then I could use that as an excuse if I was to fail. But you taught to me live limitless and start today I'm going to stop limiting myself and start doing by believing in myself

Hi Luke, I was at the USW Event earlier this evening and I just wanted to say how amazing I thought your talk was. You are so brave to talk so openly about your incredibly inspiring journey. Keep up the amazing work and keep changing lives because you'd definitely changed mine.

Found the talk at Wydean really motivational it made me think about problems I feel and ways in which I can overcome them. It made me realise that only I'll get myself to my future self and so I have to change the way I think in order to become what I want to be.
